TECHDIVING MARINE SERVICES SA DE CV or Techdiving. We start as a Techdiving Operations in 1999. We are a group committed with the work and family. Customers and Surveyors are the center of our working lives. We focus our efforts in safety /well-being, investment/value, continuous improvement and customer satisfaction.

MISSION

To provide Thickness measurements (gauging), welding inspection & Underwater services for any person or entity interested, contributing to people's safety, environment and property, using qualified human resources and using equipment certified. The application of our impartial criterion according with the norms, rules and regulations of the class society and the clients' requirements are our obligatory reference.

LOCATION: We are strategically located in Veracruz Port, Mexico, where by ground or air transportation, we move all around Mexico.

OBJECTIVE: Customer´s satisfaction & recommendation.

OUR RECORD: We have performed more than 2433 services with an excellent record of zero accidents (no injuries, no fractures and no deaths).

QUALITY POLICY

ATTENTION. Immediate attention to the applications of information or rates and the TechDiving personal should adjust to client's schedules operations in the work place. . **ON TIME:** To be attentive and punctual with our commitments and agreed work programs. **SAFETY.** - For all work, firstly to evaluate and to respect life's safety, environment, equipment's and facilities. **SERVICE.** The services will be carried out trying to the maximum not to interrupt the operations of the clients, with safety, without decrement of the quality of the service and inside of the calculated budget. **REPORTS:** The reports should be delivered daily with clear and enough information that allows taking oportune decisions, all the reports that we generate, must remain in our servant for 5 years and they are available to our client previous application. **CLIENT SATISFACTION:** We should exceed the basic necessities requested **RESPECT TO THE SOCIETY:** To respect to the society, the law and to the policy in all work's area. **DRUGS & ALCOHOL:** The use of alcohol, drugs or similar is forbidden one and it is a non-negotiable condition to keep the work. **QUALITY: We say what we done; we do what we said and sign only what we witness.** **FEEDBACK.** - To Work and improve quickly in the recommendations or clients' suggestions.

ENVIRONMENT POLICY

- Minimum paper printing. only documents required by clients and authorities.
- Only use equipment with a certificate and/or updated maintenance record to avoid the emission of polluting gases and spills.
- Batteries and used oils: Have containers to accumulate them and deposit them in authorized collection centers

ETHICS AND VALUE.

Responsibility, Truthfulness, Honesty, respect, vocation of services and the love of family are our biggest impulse for the continuous improvement in our work. **WE DO NOT ACCEPT GIFTS OR MONEY BY FAVORS:** It is better to lose a service or profit than lose the trust and credibility of one client or class's surveyor. Any agreement with the client or Surveyor must include safety and application of rules and regulations.
